Applicant hereby provisionally elects, with traverse, Group II claims 17-22. The election is made with traverse since, Applicant respectfully submits, it would not be practical to operate the backup power system of the Group III claims without a cooling system. Therefore, the requirements of MPEP §§ 806.04 and 808.01, cited by the Examiner, are not met. Applicant's election of the Group II claims is also made with traverse because, Applicant submits, the two distinct cooling systems recited (i) in claims 1-16, 23-26, and (ii) claim 30, are merely different embodiments of the same invention, and therefore not materially different apparatus. Therefore, the requirements of MPEP §806.05(e), cited by the Examiner, are not met.

Applicant does not believe that any fees are owed with this response. If in fact any fees are owed, please charge the same to our deposit account number **08-3038** referencing Howrey docket number 04813.0031.NPUS00.

Respectfully submitted,
